Projects

2018 - 2019, Some personal Facebook tools

- Facebook chatbot for my profile using Python, deployed on *Heroku*.
- Facebook chatbot for my team's fanpage (*BKFC - THPT Duc Hoa*) using NodeJS. (deprecated - replaced with our website).
- Facebook messages counting tools using Python for local tool, NodeJS for online tool: count the number of messages users have chatted with their friends.

2020 - present, Static websites with Hugo

- My blog on Gitlab Pages - miti99.gitlab.io using *Hugo*. I use it to replace my old *WordPress* blog.
- My team's website bkfc-thptduchoa.netlify.app using the same tools as my blog's with some tweaks for posting contents:
 - Allow post with LaTeX to present Math equations on posts.
 - Allow students to comment to our posts if they have questions.
